Company Information

Health Numeric is a minority owned, East Lansing Michigan business. We are a small business working to improve health outcomes in the United States. Our HIPAA compliant cloud platform and Unity gateway provides access to Remote Patient Monitoring, Chronic Care Management, Case Management, Distant Learning Programs, electronic patient screenings, Telehealth, Telemedicine, Wellness and Behavior Health services. Our Unity gateway also provides FCC approved Broadband Internet Services in the home.

Health Numeric bundled concierge services, gives clinics, home care agencies, case managers, physicians, nurses, families, and more access to a comprehensive, in-home, health support services. These bundled concierge services can quickly identify negative trends, improve quality scores, improve care team collaboration and reducing hospital readmissions while keeping vulnerable populations the center of care.

Health Numeric's multidisciplinary health care professionals, TIGER TEAM, and in-home Unity connected gateway can help supplement clinical workflows, reduce work demand on limited staff, deliver evidence-based education services and help reach targeted metric goals.
